"FatStat™ is the result of years of trial-and-error research and development in the nutritional art of true fat loss. I think you'll just love the results. The synergistic, quantum-state formula of FatStat™ promotes fat loss at all those hard to reach places in the body. For example, one key ingredient, chrysin has been shown able to break down stubborn abdominal fat. In addition to those with gross fat levels, this formula can also be used for thin people who carry "toxic fat." An added benefit is increased muscle mass and increased energy. Recently, one young lady (age 28) reported that she lost all the cellulite on her hips after taking only one bottle. I think you'll enjoy this truly effective product." — Dr. Bob Marshall, PhD, CCN
