

Superior Aloe Vera Support*

Key Aloe Vera Support Products

Full Spectrum of Aloe Vera Support

Quantum Aloe Vcaps

Full Spectrum Aloe Vera (200:1 Concentrate)

*Advanced Support for Digestion, Gastrointestinal Tract, Joints and Immune System**

- Extraordinary support for the gastrointestinal tract, mucous membranes and connective tissue*
- Features Aloe baradensis: the aloe species with the most effective immune-boosting compounds*
- Highly active, full-spectrum polysaccharides (*most aloe products contain few or no active polysaccharides*)
- Hand-tilleted, air-dried (*Not freeze-dried or solvent extracted*)

- 100% solvent-free vegetable capsules
- **Excipient-free:** no binders, fillers, glues or other toxic tagalongs as found in tablets and gelatin capsules

Each Vcap is equivalent to 1 oz. of fresh, mature aloe inner leaf gel when reconstituted.

Simply the best aloe available

Quantum Aloe (166 mg/Vcap, 60 Vcaps/bottle)

Ingredients: "Beyond Organic" Aloe Vera (inner leaf gel) (*Aloe barbadensis*) (200:1 concentrate)

Other Ingredients: 100% solvent-free vegetable capsules, 100% excipient-free (*no magnesium stearate, silicon dioxide or other toxic tagalongs*)

Recommended Use: Adults or children (age 4 and up): Take 1 Vcap, 1 to 3 times daily. For special programs, up to 12 Vcaps may be taken daily.

Quantum Aloe Drink

100% Certified Organic, Aloe Vera Juice (*No added water*)

- ❖ *Extraordinary support for the intestines, urinary tract, immune system and mucous membranes**
- ❖ *Finally, an aloe drink without toxic preservatives: no sodium benzoate or potassium sorbate*
- ❖ *As close as it gets to eating fresh aloe right in the field.*

- Extraordinary support for the gastrointestinal tract, mucous membranes and connective tissue*
- Contains the complete array of aloe's healing polysaccharides, unheated and completely intact, superior to any other form of aloe
- The Aloe barbadensis species: the species shown to have the most effective immune-boosting compounds*
- 100% pure Aloe vera, hand filleted with *no water added*. All liquid present is from the inner leaf gel and pulp only.
- Rich in mannose, one of the 8 immune-promoting sugars (often missing in the American diet)*

Special One-Day Intestinal Cleansing Program: For one day only, drink 2 oz of Quantum Aloe Drink mixed with 2 oz water (or other juice) every 2 hours for 8 to 10 times.

Quantum Aloe Drink (32 fl. oz./bottle)

Ingredients: Bioenergetically sequenced, certified organic Cental American Aloe Vera (inner leaf gel) (*Aloe barbadensis*), citric acid, ascorbic acid, grapefruit seed extract.

Other Ingredients: None; 100% excipient-free. No added water or toxic preservatives, including sodium benzoate and potassium sorbate.

Recommended Use: Adults and children (age 1 and up): Take 2 tablespoons, 1 to 3 times daily in water or juice. Our favorite recommendation is to mix 2 to 4 tsp with about 2 oz. of naturally carbonated spring water for a great taste. For special programs, 2 tablespoons can be taken 6 to 9 times daily.

Quantum Aloe Powder

World-Class, Living, "Beyond Organic", Ionically Charged Aloe Formula

*Immune, Stomach, Intestinal and Alkaline pH Support**

- 100% "beyond organic" living aloe and pomegranate powder, energy-accelerated to maximum electron spin for ideal absorption

- Naturally preserved with high-spin, "beyond organic" plant minerals particles
- Promotes ideal cellular transport when mixed with coral minerals

Quantum Aloe Powder (Net wt. 7.2 oz.)

Ingredients: "Beyond Organic", South American Aloe Vera (inner leaf), Pomegranate Concentrate, bio-energetically sequenced for maximum electron spin

Other Ingredients: None; 100% excipient-free

Recommended Use: Adults or children (age 1 and up): Mix 3/4 teaspoon in 1/4 cup of water or juice, 1 to 3 times daily. For best results, mix Quantum Aloe Powder with 1/4 to 1 teaspoon of Coral Legend daily. Drink immediately.

What is Aloe Vera?

Often called “The Miracle Plant” or “The Burn Plant” (due to its effective use for burns), Aloe Vera is a plant of many surprises because of its broad spectrum of benefits. It flourishes in warm and dry climates where many people mistake

Aloe Vera for a cactus. Although Aloe Vera does closely resemble a cactus, it is a really succulent and belongs to the Lily family.

Ancient records show that the spectacular health benefits of Aloe Vera have been known for centuries, used by many different cultures. The use of aloe for its premier health advantages as well as its beauty and skin vitality properties have survived for more than 5,000 years.

Fifteen centuries before the Birth of Christ, Egyptian writings acclaimed the benefits of the amazing aloe, even then referring to it as a “Miracle Plant.” The earliest reference to Aloe Vera was discovered with an Egyptian mummy from 1550 BC. Cleopatra, Alexander the Great and Aristotle were fans of this strange succulent prized for its soothing, healing and analgesic ability. Alexander the Great used Aloe Vera to restore the health of his troops. Cleopatra relied on its skin-soothing emollients to help preserve her legendary beauty.

Indians in Central and South America used it for burns and skin complaints, kidney and bladder concerns, and even severe stomach and intestinal imbalances.

- 2,000 years ago, the Greeks scientists regarded Aloe Vera as the “Universal Panacea”.
- The Egyptians called Aloe “The Plant of Immortality”.
- The American Indians called Aloe “The Wand of Heaven”.

The Properties of Aloe. There are more than 200 species of Aloe Vera but only one species, *Aloe Barbadosensis Miller*, is the most effective and most renowned for its health-promoting properties. Beware of Aloe products that contain the wrong or ineffective species.

The expansive benefits of Aloe Vera, applied externally or taken internally, have been described in numerous scientific journals and reveal that the Aloe Vera contains **more than 75 essential nutrients** including natural vitamins, minerals, enzymes, protein, amino acids and a recent study also discovered vitamin B12. However, it is not just the number of nutrients, but their intrinsic, harmonic balance that really counts. Aloe Vera gel (the inner leaf jelly) has a diverse mixture of complex phytonutrients that have immune-boosting and astringent properties in addition to natural coagulators, pain inhibitors, cell growth stimulators and scar inhibitors.

Today the reputation of this remarkable plant continues to grow. Aloe Vera is used by millions of people around the world for both external and internal use, backed by worldwide scientific research.

Why Choose Our Aloe Vera Products?

Our Unique Process

Aloe Vera is available in many forms from freeze-dried gels to powders to liquids. Some companies even add bleaching agents to their aloe products (rendering the finished product toxic). Freeze-drying breaks the delicate glycoside bonds of the aloe, diminishing its potency. Almost all companies use toxic preservatives to stabilize their liquid aloe, such as **sodium benzoate** (a benzene derivative and suspected carcinogen) and **potassium sorbate**. These highly questionable preservatives can

create liver and kidney stress – and certainly don’t belong in your aloe product.

In contrast, our vision has been twofold: to develop only the most premier quality aloe products by using aloe plants that have been carefully selected for their naturally high cellular resonance (inherent in *only* the most exquisitely well grown aloe) and thus, they contain the highest amounts of active factors in addition to highly bio-available nutrients. Secondly, our aloe products have absolutely no toxic tagalongs. To completely eliminate the need for toxic preservatives such as **sodium benzoate**, methyl paraben and others, we developed a unique process using only natural, food-grade agents to stabilize our premier-grade aloe, such as **grape seed extract** and vitamin C – giving you all the goodness of aloe but without the toxic tagalongs.

Our Premier Source of Aloe

Our Aloe Vera is grown far into the pristine countryside in Central America, many miles from any city or heavy traffic. When the aloe is harvested, its outer leaves are hand-picked so only fully mature leaves are selected (with the most potent immune-boosting factors) and the plant is not uprooted and killed. Younger aloe plants cannot yield the same results as fully developed mature plants. One Vcap of **Premier Aloe** is equal to 1 oz. of the mucilaginous inner leaf gel.

No Dilution with Water

In liquid aloe products, most of the liquid is *not* 100% aloe juice – in fact, most have been severely diluted with water. Often the total amount of actual aloe juice in the product is less than 10% — so you are paying a high price for water. In contract, our liquid aloe is **100% pure aloe juice** with absolutely no added water. In addition, it contains no artificial flavoring or colorings or any other toxic additives.

Most aloe products that come as capsules contain toxic additives and flowing agents such as **magnesium stearate** (a toxic hydrogenated oil). Our aloe capsules are **100% excipient-free** and contain absolutely no toxic binders and fillers – delivering to you the finest grade aloe (the true species) — without any toxic tagalongs.

Our 100% Guarantee. We thoroughly stand behind our aloe products and their absolute integrity. We offer a complete money-back guarantee on all our products — often not the case with other aloe products.
